LOCAL GIVING FOR LOCAL NEEDS

Surviving Winter
Giving a helping hand

HiWCF
LOCAL GIVING FOR LOCAL NEEDS

The aim of this fund is to ensure that older people who struggle with the cost of winter can survive the winter with a reasonable level of comfort and dignity.

The client does not have to specify what they will spend the grant on, but the assessor needs to be sure that the overall effect will be that they can afford to keep warm and look after themselves during the coldest weather. As a rule of thumb the grant should be awarded for Food, Heat or Warm Clothes.

The applicant must be either well-known to the assessor through their work with the organisation, or they must provide evidence of their identity, preferably photo ID, and a recent utility bill, bank statement or other evidence to prove hardship. Applicants should normally only receive one payment in any twelve month period from this fund.

Note: Due to the large number of older eligible people who are not claiming Pension Credit, it would be beneficial to undertake a quick welfare benefit check as part of this application process.

How much?

The usual award should be up to a maximum of £100. However, in exceptional circumstances an award of up to a maximum of £125 may be made to those over 60 years of age.
